SUMMARY

Detail-oriented Java Developer with a strong foundation in Spring Boot, MySQL, and RESTful API development. Experienced in building secure backend architectures and automating workflows using RPA (UiPath). Passionate about applying Object-Oriented Programming principles and clean code practices to develop scalable, efficient software solutions.

EDUCATION

Master of Computer Application | CGPA: ***8.10*** 2024 – 2026
Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, Odisha

Bachelor of Science | ***CGPA: 7.6*** 2021 – 2024
Swami Vivekananda Memorial Autonomous College, Odisha

PROJECTS

Movie Ticket Booking System with Payment & Notification Integration **2026**

- Developed a RESTful backend using Java, Spring Boot, Spring Data JPA, and MySQL.
- Designed APIs for movie management, show scheduling, and ticket booking workflows.
- Integrated secure payment processing system.
- Built email notification service for booking confirmation.
- Designed relational database schema and CRUD operations.
- Implemented end-to-end workflow: browse movies → book seats → pay → confirmation.

CERTIFICATIONS

Claude 101 Certification — Anthropic 2026
Foundational certification in AI and Claude model usage

RPA using UiPath Studio 2025
Robotic Process Automation training covering workflow automation and bot development

SKILLS

Programming Languages: Java, Python
Frameworks & Libraries: Spring Boot, Spring Data JPA, Spring MVC, Spring Security
Web Technologies: HTML, CSS, JavaScript
Databases: MySQL, Oracle 10g
Core Concepts: Data Structures, OOPs, REST APIs, Robotic Process Automation
Tools & Platforms: Git, GitHub, UiPath Studio, MS Office, IntelliJ IDEA, Postman

INTERESTS

Cricket: Actively follow and play cricket; develop teamwork, strategic thinking, and focus under pressure.
Artificial Intelligence: I am interested in exploring AI tools and learning how they work. I enjoy applying AI technologies to Automate tasks and improve system efficiency.
