PROFILE

Aspiring Java Developer with knowledge of **Java, Spring Boot, Spring Data JPA, and MySQL**. Familiar with backend development concepts and **REST API** design, along with a basic understanding of **Data Structures**. Eager to apply technical skills to build efficient and scalable applications.

EDUCATION

Master of computer application:

Kalinga Institute of Industrial Technology, Bhubaneswar 2024-2026
CGPA-8.10

Bachelor of Science:

Swami Vivekananda Memorial Autonomous College,Jagatsinghpur 2021-2024
CGPA-7.6

SKILLS

Programming Languages: Java, Python
Frameworks: Spring Boot, Spring Data JPA
Web Development: HTML, CSS , JavaScript
Databases: MySQL, Oracle 10g
Core CS Concepts: Data Structures, OOPs

CERTIFICATIONS

Robotic Process Automation (RPA) using UiPath Studio- Certified by KIIT Kareer School
Cloud Architecting (2025)- Certified by AWS with KIIT Kareer School
Linux Training - Certified by Red Hat Academy with KIIT Kareer School

PROJECTS

Movie Ticket Booking System

- Developed a RESTful Movie Ticket Booking backend using Java, Spring Boot, Spring Data JPA, and MySQL.
- Implemented CRUD operations for movies, shows, and bookings using Spring Data JPA.
- Designed a relational database schema to manage movies, theaters, show,booking etc.
- Built REST APIs for ticket booking, and booking management.

Payment & Email Notification Service

- Developed a backend service using Java and Spring Boot to handle payment processing and email notifications.
- Implemented payment integration to process transactions securely.
- Built an email notification system to send booking confirmations and updates to users.
- Designed REST APIs for payment handling and automated email communication.

INTERESTS

- Enthusiast of team sports with a keen interest in cricket and video game.
- Deeply passionate about Artificial Intelligence(AI) and their real-world applications.
- Actively engaged in exploring emerging technologies and driving software innovation.
